Everything for the **GB-KALEE** *Cinema and Theatre*

LITTLE THINGS MEAN A LOT

This sentimental thought, in a current popular song applies to a human relationship. Not very profound perhaps, but it has an important application to Public Relations and Your Cinema.

Little things like polished woodwork, sparkling windows and brass, spotlessly clean floors and toilets, probably unnoticed by your male patrons, but certainly observed and appreciated by the ladies.

Have you ever checked what these little things, cleaning and maintenance, can amount to annually, not only for the materials, but the time and labour spent buying and entering numerous small accounts?

When you buy all your Cine-requirements from one source you save money. To help you to cut costs to a minimum, this issue of our pocket catalogue features all the items you need in your day-to-day wash and brush-up. If we have missed any of your favourite materials, please let us know and we will obtain them for you.

Write or phone your nearest G.B.-Kalee Branch NOW, they will gladly tell you how to save money even on "little things." Their addresses and telephone numbers are on the inside back-cover.

G.B.-KALEE LTD.

A member of the British Optical & Precision Engineers' Group

Don't let DUST spoil the picture

KEEP YOUR SCREEN CLEAN

with a

GAUMONT-KALEE SCREEN BRUSH

Dust on the surface of a screen reduces the brightness of the picture : it can also ruin the metallic surface if not cleaned off regularly. With the Gaumont-Kalee screen brush you have a simple and effective means of prevention. Use it every day, when the auditorium has been cleaned, to remove dust particles. In this way you will keep the metallic surface at its maximum reflective brightness and efficiency.

Design of brush head ensures that the wood stock does not come into contact with the screen surface.

One brush, three handles and two extension pieces are sufficient for the majority of screens.

Use **G.B-Kalee Lens Tissues**

and protect your valuable lenses

The NEW G.B-Kalee lens tissues are specially made from oriental paper, of exceptional softness for cleaning all fine optical surfaces. They will not damage the polished surface of ordinary or "bloomed" lenses, and when used according to instructions will improve picture presentation and prolong the life of the lens.

Specially prepared Oriental

LENS TISSUES

For all makes of 'bloomed' and ordinary lenses

INSTRUCTIONS FOR USE

Remove dust and fine particles from the lens surfaces with a fine camel hair brush and if grease is present, remove it with Lens Tissues moistened with methylated spirit.

Polish gently with dry Lens Tissue using a circular movement.

NEVER USE RAGS, CLEANING POWDERS OR ABRASIVE MATERIALS

For maximum illumination all Lenses should be cleaned daily. These Tissues are also ideal for cleaning mirrors and all optical glassware.

Rope and pulley 23/6 per ladder extra.

Prices of longer ladders and triple extending ladders on request.

LADDERS constructed of Aluminium Alloy

Long and trouble free service no matter how arduous the conditions. The ladders may be left exposed to all weathers without deterioration or increase in weight. They will not rust, rot or splinter and they are fire-proof. Where great strength is required with ease of handling, the high safety-factor of these ladders strongly recommends them.

In addition to the types listed we can supply painters, trestles, double-sided ladders, ladders for specific jobs and wooden ladders.

Convertible Step/Extension Ladders

A useful dual-purpose ladder. The back legs are fitted with treads and can be used as an extension.

VACUUM CLEANERS

Listed below are three makes of vacuum cleaners we recommend for use in cinemas and theatres. They can be relied upon to give long and efficient service. We will be pleased to send full details on request, or arrange for a demonstration of the New Welbeck cleaner.

"HOOVER" Model 912

Specially designed for heavy duty ; reinforced in all parts likely to be affected by rough usage.

Including P.T. £34 7 6

"HOOVER" Dustette

The small hand cleaner with a multitude of uses.

Including P.T. £10 2 2

"STURTEVANT" Model No. 3

The vacuum cleaner with three times the cleaning capacity of the domestic type. Fitted with a universal electric motor rated at $\frac{1}{3}$ H.P.

£70 0 0

"STURTEVANT" Model No. 4

A large size vacuum cleaner that will meet the heaviest demands. Can be easily used by women and wheeled up and down stairs. Fitted with a universal electric motor developing $\frac{1}{2}$ B.H.P.

£110 0 0

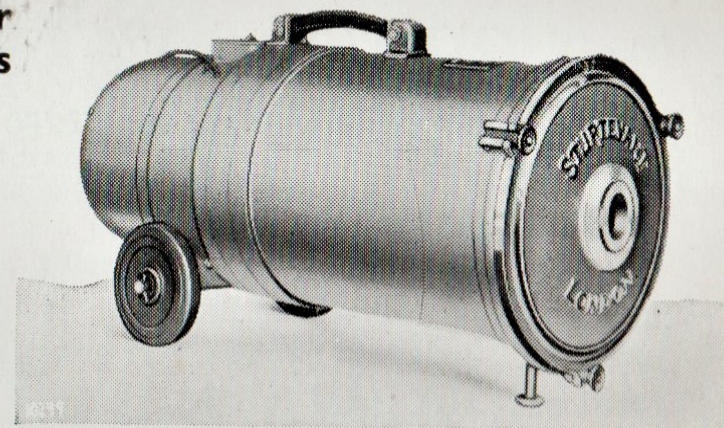

"NEW WELBECK" Senior Model

Designed to perform a multiplicity of services with economic and trouble free efficiency. The metal dust container is of large capacity and the power unit, mounted in a special two-stage spring suspension, gives almost noiseless operation. The detachable trolley and overall lightness enables it to be easily used by women. Complete with a range of accessories for cleaning carpets, curtains, seating, floors and walls.

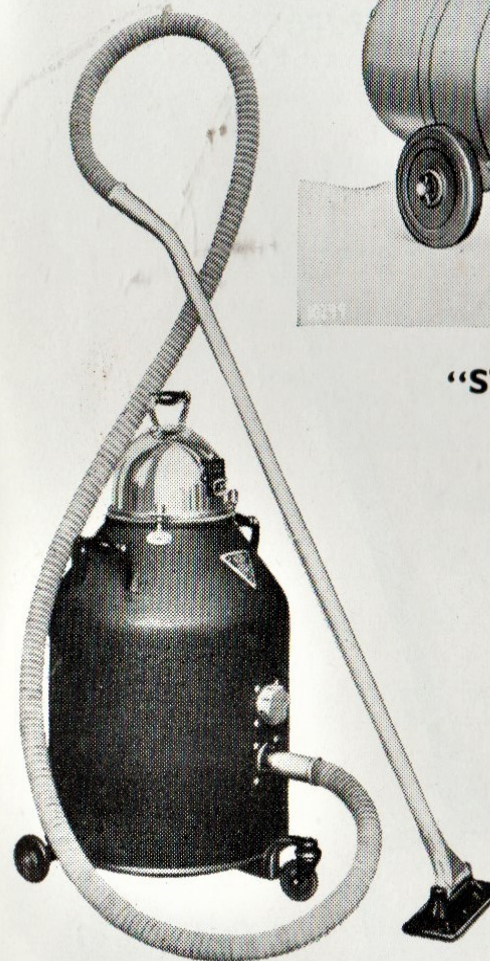

£68 5 0

"Electrolux," B.V.C. vacuum cleaners also supplied. Hire Purchase terms arranged if desired.

The "HOOVER" Electric POLISHER for Floors and Furniture

Polishes floors better and faster than any other method. This means a saving in time and cost of labour. Twin soft brushes, rotating at high speed in opposite directions, produce a brilliant long-lasting surface on all types of floors. A built-in headlight automatically turns on with the polisher. Complete with one pair of felt polishing pads and one pair lambs-wool buffing pads.
