

## PROJECTOR STAND

This Stand is substantially constructed in angle iron with supporting side bars which render it absolutely rigid when extended and in position for projection.

As shown in the illustration it folds up flat occupying the minimum amount of space and making it easily portable.

The whole unit is compact and the legs extend by simply loosening the wing nuts which secure the side bars in position. It is not necessary to remove the wing nuts nor to detach the side bars either when extending or folding up the stand.

The stand is 4 feet high and the top measures 21" long by 13" wide, and will accommodate any projector. Nett weight 28 lbs.

Most attractively finished in grey crystalline and moderately priced:

**£5-15-0**

## 16 mm. SPOOL AND SPARES CABINET

This well designed and compactly built Cabinet fulfils the projectionists need for a handy place for keeping film copies and programmes, projector spares, records, etc.

- ★ Strongly built in strong gauge sheet steel.
- ★ Partitioned into 5 correctly sized compartments to hold 9 1,600-ft. Spool Cans, 3 800-ft. Cans, and 6 400-ft. Cans.
- ★ The whole unit is contained by 2 spring doors.
- ★ Being so spacious at least one compartment could be devoted to the storage of projector spares and/or records for the Non-Sync.
- ★ The Cabinet top which measures 16 in. square can easily accommodate the Non-Sync.
- ★ The Cabinet is sold with or without the stand.

The whole unit is elegantly finished in crystalline grey and most reasonably priced :

**£6-0-0** *as illustrated*

**£5-0-0** *without stand*
